

RELEASE OF LIABILITY
MOKELUMNE RIVER CLEAN UP

I am a volunteer participant in the Mokelumne River Cleanup taking place Saturday, September 16, 2017. By signing this document and participating in this event I acknowledge that:

No one has made any statements to me regarding the condition of the river or any property bordering the river or reservoir.

I have been informed and understand that no one has inspected the river and reservoir or the area bordering the river or reservoir to determine whether dangerous conditions there might cause injury and harm.

I understand there are potentially strong currents and deep water in the river and reservoir that could be hazardous.

I understand that the land along the river and reservoir may contain hazardous animals, plants, debris, or other unsafe conditions including but not limited to poisonous snakes, poison oak, uneven surfaces, holes and unstable footing which may cause injury to persons and property.

I understand that trash along the river and reservoir may include hypodermic needles, condoms and other items that may be hazardous to human health. I have been advised not to handle such items.

I agree to allow my image to be used in published materials and web sites that promote the programs of Foothill Conservancy. I agree not to seek any compensation from Foothill Conservancy for the use of my image, name, or statements. This also applies to my minor children, listed below.

In consideration for your allowing me to participate in the 2017 Mokelumne River Cleanup, I hereby waive and release for myself and on behalf of my heirs, executors, administrators and assigns any and all rights and claims, including claims based on negligence, that I may have, because of my participation in the Cleanup or in traveling to or from the event, against any person, organization, entity or official affiliated with the 2017 Mokelumne River Cleanup including but not limited to: Foothill Conservancy and its members and staff, East Bay Municipal Utility District, the U.S. Forest Service, and all owners of public and private property adjacent to the Mokelumne River.
